The EGF will be covered in various Commission publications and audio-visual activities as provided for in Article 11(4) of the EGF Regulation.

3. Technical support:

- Maintenance and updating of an electronic data exchange system. The Commission is continuing its work on standardised procedures for EGF applications and management, using the functionalities of the Shared Fund Management Common System (SFC), into which the EGF is being integrated. This allows applications under the EGF Regulation to be simplified, their processing to be speeded up and reports to be more easily extracted for varying needs. The SFC interface is also facilitating the EGF financial operations.
- Development of the post-2020 interface in SFC which will require additional funds for creation of new functionalities and adjustments to possible changes in the post-2020 EGF Regulation.
- Monitoring and data gathering. The Commission will collect data on applications received, paid and wound up, and measures proposed and implemented. This data will be made available on the web site and compiled in appropriate form for the Biennial Reports of 2021.

Financing

5. Article 11(1) of the EGF Regulation states that 0,5 % of this amount can be made available for technical assistance at the initiative of the Commission. Currently, the entire amount for 2020 remains available; nothing has yet been allocated to technical assistance. The proposed amount corresponds to 0,19% of the maximum annual budget available for the EGF in 2020.

6. The proposed decision to mobilise the EGF will be taken jointly by the European Parliament and the Council, as laid down in point 13 of the Interinstitutional Agreement of 2 December 2013 between the European Parliament, the Council and the Commission on budgetary discipline, on cooperation in budgetary matters and on sound financial management.
